

Galaxy class, Year 1 – Autumn Homework

Create a model to show 'Where do I live'. It could include your house, your village, your country, your continent and our planet. Google 'my place in the world' for more ideas.

Draw a picture of your dream home. Think carefully about what it would look like and what it would have inside. Would it have any secret rooms? What would it be made from? Label the picture. Write a description of your favourite room in the house.

Ask your friends and family if they live in a flat, bungalow, semi-detached or terrace house. Count how many of your friends and family live in each kind of house and work out which house most people live in. Make a chart to show your results.

Research and create a factfile about the different countries of the UK. Maybe you have visited another part of the UK. You could include what you saw/pictures of famous landmarks or special foods you tried in these countries.

Our topics this term are 'Where do we live?' & 'Homes in the past'. Please complete one piece of homework (or more) from these options or if you prefer you may choose something else that interests you linked to our topics.

Please could all homework be brought in on **Monday 23rd November**. As we have limited display space, we kindly ask that homework is not brought in before this date. Thank you for your understanding! 😊

Our Homework Exhibition will be after school on **Wed 25th Nov**.

We look forward to seeing all of your fantastic homework. Thank you

Draw a map of your route to school, include key roads, buildings or anything interesting you see. Can you add your own symbols and make a key to explain what your symbols mean?

Use the internet and library books to research houses through the ages. What is still the same? What is different? Draw a poster to show what you have found out.
